INFO2180 - Lab 1 (10 marks)
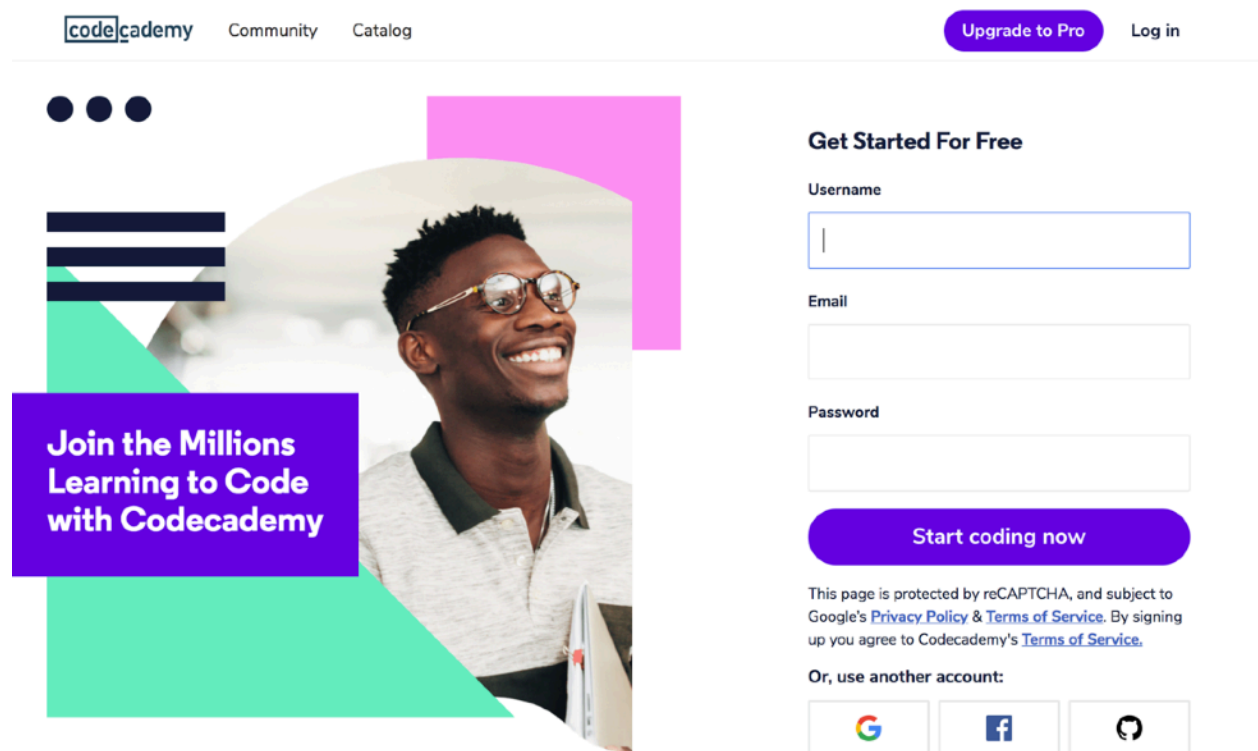

Due Date: Monday, September 17, 2018

For this lab you will sign up with Codecademy and work through the "**Learn HTML**" and "**Learn CSS**" courses.

You will be required to submit the URL of your Codecademy profile page by the deadline specified above.

Step 1: Get Started

To get started visit: https://www.codecademy.com and Sign up for a new account if you don't already have one. You may sign up with your email address or you can use one of your other online accounts (e.g. Google or Facebook).

Step 2: Complete the Learn HTML and Learn CSS courses

1. Units 1 - 2 of the **"Learn HTML"** lesson. https://www.codecademy.com/learn/learn-html
   Note: Ensure you complete **ALL** lessons from *HTML Elements and Structure* all the way to the *HTML Tables* lesson.

2. Units 1 - 6 of the **"Learn CSS"** lesson. https://www.codecademy.com/learn/learn-css
   Note: Ensure you complete **ALL** lessons from *Learn CSS: Selectors and Visual Rules* all the way to the *Learn CSS: Grid* lesson.

Note: You are not expected to do any items marked as **PRO**.

Step 3: Submit the link to your Codecademy Profile

1. Locate your Profile URL and Copy the URL of your profile page. It should be in the format https://www.codecademy.com/your-user-name. For example, if your username is **johndoe**, then the URL you will need to submit is https://www.codecademy.com/johndoe.

NOTE: If the all the lessons are complete you should see them show up on your profile page under the "Completed Skills" section.

2. Submit your information via the "**Lab 1 Submission**" link on OurVLE, with your Codecademy Profile URL. (e.g. https://www.codecademy.com/your-user-name)
